[u/EquitesCatafractarii](#)

Hi all.

I've been with my girlfriend for 3 years and thereabouts, and all was going pretty well. I met her IRL, but before that I was having no success with the Tinder game. She, herself, never used it ever.

2 weeks ago, she was telling me about some of her friends' horror stories on Tinder, and I laughed with her and added "Tinder's way worse for guys, though". She didn't believe me when I told her most guys get 0 matches, and I wouldn't either. So we decided to play (what seemed at the time) a fun game : set up Tinder profiles of each other and see what happened. And the obvious happened: after one week, I had pretty much no matches except bots. On the other hand, she was bombarded with matches and messages, quite a few of them from pretty attractive guys (or at least, what I judge to be attractive guys, a lot of them probably more than me). She admitted I was right and that it was an "eye opener". We agreed to shut down our profiles.

The problem is, ever since, she's grown slightly more distant and cold, and it's now beginning to be noticeable. Basically less happy

Some times it feels like that I had a 3month period where I felt like i didn't get a good pump in the gym like once but I looked at pics and was considerably bigger than before. Sometimes it's mental or even if it isn't you're still getting bigger if you put the work in

Torey needs to stop babying Archie he's literally been coddled the whole time he's been in the organization. Give Lopez the 8th inning until he figures it out. His strategy of throwing fastballs right down the middle doesn't work when you're only hitting 94-96

I respect all of your opinions and agree that this presidency hasn't exactly gone the way we all imagined, but it's not over. Trump doesn't deserve 4 more years, but he needs 4 more years. Time to circle the wagons boys #MAGA

I'm hopeful that maybe the ideas that trump had could manifest themselves in another candidate in the future I know that's really wishful thinking but that seems like the only hope the GOP has. It might seem dumb but giving up on him and this dream now would literally crush me

To be honest I was never sold on the whole acceleration thing but I can see why it's appealing to some people. I think Trump needs 4 more years, he doesn't necessarily deserve them though. Also I wanna beat Tulsi Gabbard's cheeks

My name is Goku, and I love every single one of you. All of you are amazing, cool, and great people who spend every second of their day amping everything about life! You are everything that's right in the world. Honestly, have any of you ever had a bad day? I mean, I guess having your heart ripped out is bad, but you all have such great lives! There's even greater than the known. Burned, more massive.
Don't be a stranger, just share some of your energy with me when I'm making a Spirit Bomb. I really much need all of you guys in order to win even though I'm one of the strongest fighters in the universe. Oh, what training programs do you guys do other than "train under 400 times normal gravity" like Vegeta? I'm trying to reach the next Super Saiyan level but my wife keeps nagging at me (she just called me an irresponsible husband, it was so mean!) You are all amazing people who should train without Thomas for listening.
Pic Related it's me and my wife

Don't be a stranger. Just hit me with your best ki blast. I'm pretty much perfect. I was the leader of my own team of warriors, and I am the Prince of all Saiyans. What training programs do you do, other than "back off to Bushy's magazine"? I am also a Super Saiyan, and have a beautiful and smart girlfriend (she just made me a Blueberry Banana). She was OVERNINE THOUSAND! You are all faggots who should show up like Chazzy.

the early 1800s doomer

life swings like a pendulum backward
and forward between pain and boredom

to live alone is the fate of all great souls

to marry means to
halve ones rights
and double ones duties

we forfeit three
quarters of our
freedoms to be
like other people

the brain may be
regarded as a
kind of parasite
